

Accomplishments

Dr. Meenakumari. B

Since 2008, I have been involved in the ‘Hereditary Cancer Detection and Prevention Program’ where a detailed questionnaire regarding the family history, personal history and dietary habits is collected from the patients and/or their family members. Genetic testing is offered to the affected individuals. I have also been involved in performing NGS using high throughput platform. I received an Award for Best Poster presentation in “International symposium on Cancer Biology”, National Institute of Immunology, New Delhi, 2011.

Key publications:

1. Soumitra N, **Meenakumari B**, Parija T, Sridevi V, Nancy KN, Swaminathan R, Rajalekshmy KR, Majhi U, Rajkumar T. “Molecular genetics analysis of hereditary breast and ovarian cancer patients in India”. Hered Cancer Clin Pract **7(1):13** (2009).
2. Lavanya N, **Meenakumari B**, Swaminathan R, Rajkumar T. ”Prognostic significance of HPV physical status and integration sites in cervical cancer”. Asian Pac J Cancer Prev **10(3):355-60** (2009).
